You have the
skilled resources

but they need
direction and focus
to work together

HSG Consulting LLC

**Helene Gidley, PMP,
owner of HSG
Consulting LLC, has
over 20 years of
experience in the
Information Systems
Industry.**

My passion is to help companies get **organized** with their projects and get their **work done**. Companies looking to adopt an **Agile** methodology hold a particular interest for me since I'm quite fond of doing more of what works and less of what doesn't to **produce** deliverables **quickly** and iteratively.

If this sounds like a **good idea** to you too, it would be great to talk with you about possibilities we can make together!

Helene can help you get focused with:

- ◆ Agile Development
- ◆ Project Ignition
- ◆ Business Analysis
- ◆ Project Management and oversight
- ◆ Team Building
- ◆ Working with dispersed Project Teams

Endorsements:

"Helene has joined several of our teams in the role of project manager. She has demonstrated adaptability by finding a way to fit her style into our well defined project management process. She is diligent and proactive; she is always encouraging team members to beat deadlines and looks for barriers to remove that can help team members succeed. I look forward to working with her in the future." *January 18, 2006*

James Goebel

Chief Architect/Partner, Menlo Innovations
